

Tatsuno-Otoshigo

Issey Miyake and Reality Lab, 2012

Description

"When you see them, you can't help feeling moved; when you understand them, you are full of wonder seeing a future we thought unreachable and couldn't imagine this beautiful."
Ernesto Gismondi

The IN-EI ISSEY MIYAKE lighting collection was co-developed and manufactured by Artemide. It is a collection of free standing, table and hanging lights. Each lampshade is created using 2 or 3D mathematic principals, where light and shade harmoniously alternate. Miyake's unique folding technology creates both statuesque forms as well as sufficient solidity. The structure of the recycled material, together with an additional surface treatment allows these shades to perfectly keep their shape without the need for an internal frame. They can be easily stored flat when not in use.

Tatsuno-Otoshigo is a dimmable LED suspension light.

Bulb 28W LED warm white 3000K, 1500lm

Dimensions

37w x 37d x 151cmh

Product code

ART-1696010A
