

MEDUSE

design GamFratesi
2009

A series of coffee tables inspired by the iconic shape of the jellyfish. The typical soft and smooth body encloses its internal structure, from which the tentacles are suspended. The coffee tables are constructed with a metal steel structure with a pressed sheet-metal top.

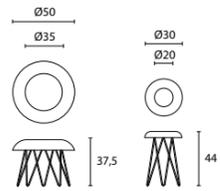

Tavolini da salotto ispirati ad un'iconica forma di medusa. Il caratteristico corpo rotondo, in metallo verniciato, racchiude una struttura interna dalla quale scendono sospesi i tentacoli in metallo verniciato in tinta con il piano.

MATERIALS AND FINISHES

Embossed painted metal also for outdoor use.

MATERIALI E FINITURE
