FOSCARINI

Inspired by the classic table lamp with lampshade, Lumiere was designed in 1990 by Rodolfo Dordoni and immediately became one of the best sellers in the Foscarini collection, characterised by the original and harmonious combination of the essential form of the diffuser in mouth-blown glass and the slim support of the characteristic tripod in aluminium alloy. In 2005 the lamp was modernised with the introduction of new color shades for the diffuser – keeping the white internal layer to help reflect the light – and a new finish for the tripod, demonstrating the surprising

modernity of one the cult pieces of the collection. The refined elegance of Lumiere, the availability of two different sizes and four different colours, together with its warm, intense, diffused light, make it the perfect lamp for various environments, different in both style and taste.
