HORM

Barbara is a table with an oval or round top and a central base. The product draws free inspiration from the works of the English sculptor [Jocelyn Barbara Hepworth](#) (1903–1975), and from her incessant study of the relationship

between humans, the natural environment and materials. The sculptural shape, generous dimensions and precious materials contribute to giving the table a luxurious and contemporary look with undoubted personality.

The round table, in diameters 160 and 180cm, can be equipped with a "Lazy Susan" tray with a black [Fenix-NTM](#) top, which swivels and is removable for easy cleaning.
