OBLIQUE—

Salvatore Indriolo, 2011

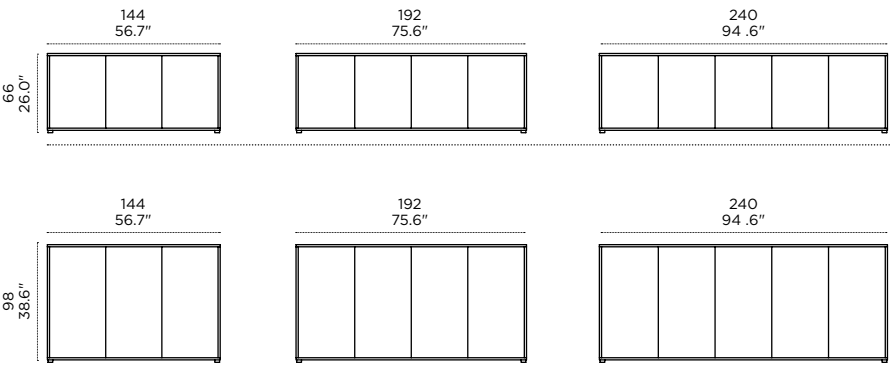

Поворотные фронтальные дверцы Oblique идут «внахлест», одна на другую, создавая эффект простоты и, одновременно, элегантности. Открытие и закрытие «от себя и к себе» делает систему еще более минималистической, в которой внимание к механическим деталям – это конечная цель проекта.

OBLIQUE — Oblique è contraddistinto da ante a bilico appoggiate l’una sull’altra che creano un dettaglio semplice quanto elegante. L’apertura tramite push-pull contribuisce a rendere il sistema ancora più minimale. L’attenzione al dettaglio meccanico è il punto di arrivo del pensiero progettuale.
