

# WOODCLOCK —

Carlo Stefanut, 2013

Идеальное соединение шести полос из цельного дерева — это именно то, что характеризует Woodclock; соединение, которое метафорически представляет идеальное сочетание повседневных задач. Модель Woodclock, которая может быть установлена на стене в двенадцати разных позициях, это часы, которые, благодаря их элегантности, оптически удлиняют стены, оживляя и приводя их в движение.
