A Flexible and Versatile Lounge Chair Series

The unique expression of the Pad series derives from its distinct combination of materials, tactility and shape. The molded shells in oak veneer stand in contrast to the soft, padded front, while the metal base adds airiness and strength to the design. In full, a balanced design, which captures the comfortable and the streamlined, the classic and the foresighted.

Press Release Pad

Pad lounge chairs are made up of a solid metal frame, in which sections of strong oak veneer form the backrest and seat. The veneer is fitted with molded PU foam, which is then upholstered by skilled upholsterers. The shape is boxy, yet perfectly rounded; Organic texture and warmth flirt with cool shine in the meeting of wood, textile and steel or aluminum.

Now available with either a swivel or a static base, with a high or low backrest, in lacquered oak or black painted oak and with several different upholstery options, the Pad series boasts versatility and flexibility, and offers a wide range of different, elegant options for sophisticated seating in private homes, restaurants, hotels and lounge areas.
