STUDIO VIT

PETITE FRITURE

STUDIO VIT

Studio Vit was founded in London by Helena Jonasson and Veronica Dagnert in 2010. They come from diverse backgrounds, - Helena with a BA in Industrial Design and Veronica with a BA in Fashion and an MA in Communication Design from Central Saint Martins. However, these diverse backgrounds complement each other, allowing the designers to have a wide range of projects, fuelled by a joint vision.

Studio Vit designs furniture, lighting and layout. Referencing archetypal objects and form, it is essential for the studio to design long lasting, carefully considered and well made products with great attention to detail.

"Our main interest lies in the relationship between elementary form, material and volume and how these elements relate to a space. Objects coexist harmoniously, but simultaneously recall tension and imbalance. Materials are a central theme and each is valued for its inherent characteristics, whether it be weight, texture or colour."

CAST
TABLE & PENDANT LAMPS
STUDIO VIT

Edition 2016

CAST...
ACCORDING TO ITS DESIGNERS :

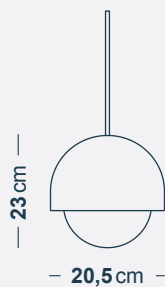

"CAST lights are a pendant and a table lamp made from cast concrete and borosilicate glass. Using a sphere and a hemisphere, the collection is made up from geometrical forms and opposite materials."

CAST is the first collaboration between PETITE FRITURE and Studio Vit, a duo of Swedish designers who made their name in London after their lighting events at Hotel Ace.

Associating the density of concrete with the lightness of a borosilicate glass worked ball... This line includes a pendant lamp and a table lamp that defy the laws of gravity and the relationship of forces between materials.

CAST plays on the meeting of pure forms – of spheres and hemispheres – and of materials that are treated without gimmicks – poured concrete and glass – to give birth to the arrangements that are as surprising by their strength as by the softness that they emit.

DIMENSIONS & WEIGHTS

Ø: 23 cm ; H: 20,5 cm
W: 1,5 kg
Packaging: 22 x 22 x 42 cm

Ø: 27 cm ; H: 16 cm
W: 2,9 kg
Packaging: 22 x 22 x 36 cm

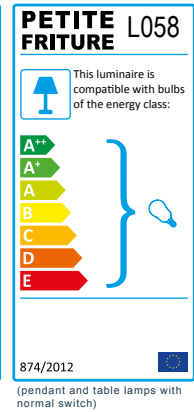

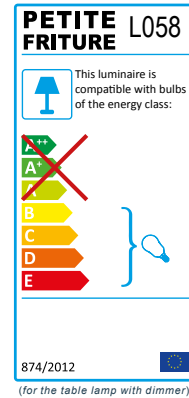

TECHNICAL SPECIFICATIONS

- Environment : indoor
- Made in Europe

220-240 V 50-60 Hz

- Bulb not provided
- cable 2 m

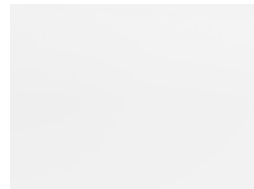

COLOURS & MATERIALS

- Mass tinted concrete, borosilicate glass

TRANSPARENT
GLASS

GREY
CONCRETE

TABLE LAMP
REF. L0580202
REF. L0580302 (dimmer)

PENDANT LAMP
REF. L0580102
