GRILLO
WALL LAMPS
ELISE FOUIN

Edition 2014

GRILLO...

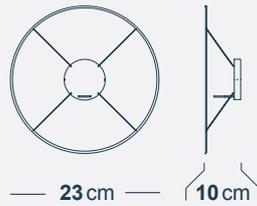

ACCORDING TO ITS DESIGNER :

« The wall lamp GRILLO is the response to an exposed lightbulb on a wall. Its simple perforated circular form diffuses, refracts and dims the light much like a solar eclipse. With its minimalist form it is easily incorporated into classic and contemporary interiors. »

The GRILLO wall-lamp of Elise Fouin is after all a simple and elegant solution to dress up a light bulb. Dressed by a perforated metal disc, of 23cm or 36cm of diameter, the light bulb disappears and allows a light to seep through and be diffused. The minimal structure, combined with the light, becomes an eclipse.
