## MARC SARRASIN

Born in 1982 in France, Marc Sarrazin graduated in ornamental structure from Boullé Art school and from ENSCI - Les Ateliers. He lives and works in Paris where he shares his time between personal projects and free lance projects. He has notably worked with François Azambourg, Neil Poulton and currently works with the Adrien Gardère studio for whom he created the scenography for the «Rubens' Europe» exhibition at Louvre-Lens.

*« I don't think I have any particular axes' that guide my work, I stay pretty intuitive. It is the advantage of the project, and the multiple factors that come with it, and impose themselves more or less naturally on the procedure. That said, I am attached to the idea of putting into question the nature of the object through its use, with a particular affection for anything that could become a stimulus for our unconscious and our imagination. »*

**MOIRE...**

**ACCORDING TO ITS DESIGNER :**

*« Inspired by minimal surfaces and thought of as a lamp garment, MOIRE plays with the lampshade typology to generate an elementary volume. Between opaqueness and transparency, it reveals different light qualities, using very little material. »*

MOIRE by Marc Sarrazin is a series of modular lights that can be used as hanging lamps, pendant lamps or floor lamps, the two cables that come with each lamp allowing the user to make its choice. The designer took inspiration from lamp shade codes in order to create a simple yet strong structure. The textile mesh covering creates an atmospheric and diffused light enhancing the volume of the lamp due to its transparency.

DIMENSIONS & WEIGHTS

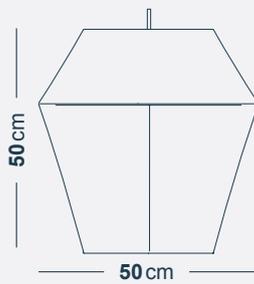

SMALL

Ø: 35 cm ; H: 35 cm  
W: 0,7 kg

Packaging: 37 x 37 x 37 cm

LARGE

Ø: 50 cm ; H: 50 cm  
W: 0,8 kg

Packaging: 52 x 52 x 52 cm

## TECHNICAL SPECIFICATIONS

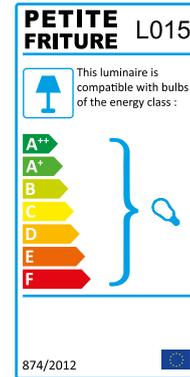

- Environment : indoor
- Made in Europe  
(France)

220-240 V 50-60 Hz

 (only for the wall lamp and the pendant lamp)

- Bulb not provided  
max. Ø65mm
- Two kinds of black or white mesh textile and 3 m cables are available in the packaging, one is used for pendant lamp, the other one to be used as wall or table lamp.
- Socket and ceiling cup white or black plastic

## COLOURS & MATERIALS

- Polyester, lacquered copper, grained epoxy paint

BLACK  
RAL 9005
