

PH SNOWBALL

The fixture emits comfortable glare-free diffused light. Matt painted undersurfaces and glossy top surfaces result in an attractive reflection of the diffused light, creating uniform light distribution around the fixture. When the light is switched on, the top portion is illuminated while the bottom part remains dark.

Poul Henningsen

The very influential Danish designer, architect, writer, and cultural critic, Poul Henningsen (1894-1967), has had a huge impact on Danish thinking and design. His legacy is an integrated part of Louis Poulsen's endeavor to shape light.
