

Nelson Tables

George Nelson, 1960

vitra.

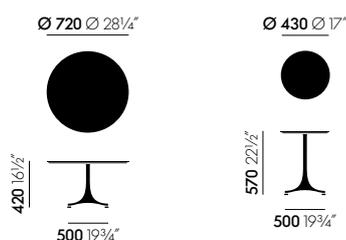

Nelson Tables

The Nelson Tables, like all of George Nelson's designs, demonstrate his devoted attention to detail. The chamfered edge of the table emphasises the exposed layers of the birch veneer top. Nelson Tables are available in two different sizes and heights – Table 5451 and Table 5452 – making them suited to a variety of different settings.

Materials

- **Table top:** high-pressure laminate surface in white or black. Chamfered edges with exposed birch plywood veneers.
- **Base:** tubular steel pedestal and legs in die-cast aluminium, powder-coated in white or basic dark.
- **Glides:** adjustable nylon glides.
