

Plywood Group CTM

Charles & Ray Eames, 1945/1946

vitra.

Plywood Group CTM

With the aim of producing a round coffee table, Charles and Ray Eames pursued various experiments that ultimately resulted in the CTM table (Coffee Table Metal). Designed in 1946, this simple table has a round plywood top with a slightly

raised moulded edge and four slender tubular steel legs. It is ideally suited for use with other designs from the Plywood Group by Charles and Ray Eames.

Materials

- **Table top:** moulded ash plywood, slightly indented centre.
- **Base:** chrome-plated tubular steel.
- **Glides:** fitted with hard glides for carpet.
