CURIOSITY CABINET
Designed by *Mentze Ottenstein*

*Audo launches the Curiosity Cabinet
in low and high versions.*

The Curiosity Cabinet is a timeless storage solution that offers a perfect blend of versatility, elegance and unparalleled craftsmanship. The low and high versions cater to diverse preferences and spatial requirements to seamlessly integrate into dining rooms, kitchens and living areas.

The Curiosity Cabinet features reeded glass panels that not only add a touch of elegance but also cleverly disguise the contents within, maintaining a sense of privacy and order. The cabinet's meticulous attention to craftsmanship and the use of premium materials elevate it to a refined piece of furniture that stands out in any setting.

In solid FSC™-certified oak it not only enhances durability but also contributes to a sophisticated appearance, providing a sturdy foundation for long-term use. Bronzed brass, used as fixtures for handles and hinges, adds a further touch of luxury and sophistication. Two internal shelves, adjustable at varying heights, provide ample room to store a variety of items – from dinnerware and office essentials to home textiles and clothing.

The Curiosity Cabinet in high and low versions launch online and at Audo Copenhagen retailers on 28. February 2024.

About the Designer

Mentze Ottenstein is a collaboration between Danish architects and designers Mathias Mentze and Alexander Ottenstein. An architect and design lecturer at The Royal Danish Academy of Fine Arts, Mathias Mentze infuses design, history, craft and tactility into projects large and small. Architect Alexander Ottenstein has collaborated with high-profile Danish studios but is most passionate about smaller scale projects. Working across a range of disciplines, from buildings to objects to furniture, their common approach is often contextual.
