EAVE DINING SOFA  
Designed by *Norm Architects*

EAVE DINING SOFA  
Designed by *Norm Architects*

The architecture-inspired Eave collection gains a new member this season with the addition of a banquette. Eave Dining Sofa is designed to meet the needs of contract and residential design, blurring the lines between the private and the public.

Creating a welcoming fusion of sofa and bench to bring a homely aesthetic to new territories, the functional new design is set on slender metal legs for a light expression and easy access to the floor for cleaning. The softly minimalist sofa is offered in a range of standard sizes well suited for use in restaurants and hotels, but also for the home as a substitute for a bench or traditional dining chairs. Bespoke solutions accommodate individual requirements for height, length and depth, as well as upholstery fabric.

Mastering the fine balance between creating a design that fits seamlessly into a space while retaining a sense of character that makes it stand out, Eave Banquette is a lasting piece of design crafted to the highest standards. With unlimited opportunities to extend the configuration, all you need to do is lean back and enjoy the meal.

*“The sofa collection’s distinctive detail is its ‘eaves.’ The curved silhouette takes its cues from the lower edges of a roof that meet or overhang a wall to lend the furniture its expressive character.”* – Norm Architects

*About the Designer*

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. Today, the group regularly collaborates with Audo, helping to drive the evolution of the brand and its product offerings. Norm Architects’ name reflects the group’s emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement.
