PLINTH BRIDGE
Designed by *Norm Architects*

PLINTH BRIDGE
Designed by *Norm Architects*

Introducing Plinth Bridge – a new addition to the ever-growing Plinth Collection.

Surface space is often at a premium. MENU solves the common conundrum with the Plinth Bridge, a space-enhancing table with modern material appeal.

Designed by Norm Architects and shaped with a classic silhouette from beautiful, natural materials, Plinth Bridge is sized to fit across the Plinth Grand and Plinth Low podiums. Forming a bridge across the low-slung designs, it elevates and enhances surface space. The new design also works alone as a coffee or side table. Classic and modern at the same time, Plinth Bridge is available in a range of marble types including Black Marquina, White Carrera, Grey Kendzo and Calacatta Viola marble as well as Kunis Breccia stone.

About the designer

Founded in Copenhagen in 2008 by Jonas Bjerre-Poulsen and Kasper Rønn, Norm Architects specialise in residential architecture, commercial interiors, industrial design, photography and art direction. The name, Norm Architects, reflects the group's emphasis on the importance of drawing inspiration from norms and traditions within architecture and design – particularly the Scandinavian design principles of timeless aesthetics and natural materials, and the modernist values of restraint and refinement. Guided by these principles, Norm Architects produce a design that unites materials and craftsmanship, while embodying beauty, history and, most importantly, timeless simplicity, where there is nothing more to add or take away. Today, the group regularly collaborates with Audo, helping to drive the evolution of the brand and its product offerings —imbued with the same intrinsic quality as Norms creative direction: a simplicity that carries bigger ideas. Lead by the body and mind rather than by trends or technology, their projects explore ideas that not only look good but that also feel good: architecture becomes thoughtful, minimalism acquires softness and visual matter assumes haptic qualities.

PRODUCT TYPE
Lounge table

ENVIRONMENT
Indoor
