

Tulip

ARMCHAIRS

2000

Jeffrey Bernett

Description

Tulip is a 360-degree swivel armchair with remarkably flexible use, whose highlight is the well-balanced proportion between its thickness and the intersections of straight lines and curves. The polished brushed aluminium supporting disc reflects part of the frame, thus emphasising the item's roundness. Two cuts carved into the backrest and a soft seat cushion make the chair cosy and comfortable.

Technical information

Internal frame

tubular steel and steel profiles

Internal frame upholstery

Bayfit® flexible cold shaped polyurethane foam, polyester fibre cover

Seat cushion upholstery

shaped polyurethane of different density, polyester fibre cover

Swivel base-frame

aluminium sheet and extrusions

Ferrules

thermoplastic material

Cover

fabric or leather
