Product use:	Indoor
Materials:	Aluminium structure, glass lens
Colors:	Matt black, matt white
Description:	Elegance and purity in form characterise the "Koinè" family of pendant lights, named for its meaning of "shared language" and for its shapes which make it extremely versatile. The light source features a specially designed mineral lens. The light beam distributed by the lens is homogenous and distinct, a broad cone of light with clearly-defined edges.
