# VL STUDIO WALL LAMP

The fixture emits a glare-free, diffused light. The triple-layered opal glass provides a pleasant and uniform illumination of the area around the fixture. The lamp shade can be tilted 90 degrees to the right or left, which allows for flexible light distribution.

Vilhelm Lauritzen

Vilhelm Lauritzen (1894–1984) is one of the most significant architects in the history of Denmark; he was the trail-blazing figurehead of Danish functionalism. A number of his buildings – Nørrebro Theatre (1931–32), Daells Varehus department store (1928–35), Radiohuset (1936-41) and the first airport built in Kastrup (1937–39) – represented the concentrated essence of contemporary life.
