

Disco

Jordi Miralbell, Mariona Raventós. 1995
Wall lamp

Reminiscent of the stars during an eclipse, the light reflected on the wall creates a pleasant halo. The Disco wall lamp consists of a metal disc that hides a LED light source, diffusing the light around the opaque circle.

Jordi Miralbell and Mariona Raventós were a pair of design artisans, who created beautiful pieces of lighting and furniture. For over 15 years, they shared with us the adventure of Santa & Cole, as authors, editors and partners.
