Trípode M3 (A) model

Trípode is a family conceived to lend neutral spaces through the use of colour. The GT5 suspension lamp, from 1994, was the first of a large family that was born as an alternative to the use of cardboard, methacrylates or solid textile shades, bringing back forgotten artisanal techniques through its handmade cotton ribbons. When the light on, they provide a characteristic warm light, rich in nuances. With the light off, this lamp is a sculptural statement piece that enhances the room.

As the Trípode family has grown to meet different needs, so have its taping options. In 2013, together with the Raw Color studio in Eindhoven (Holland), new colours were developed based on three yarns: tile, mustard yellow and forest green, which were added to the basic colours in force since 1994: raw white, amber red and black. In 2022, for its 25th anniversary, we presented two new options designed by textile expert Júlia Esqué. The collaboration resulted in the Diplomática striped ribbon and the Bretona striped ribbon, two typologies that bring rhythm and personality. A totem of contemporary design: sober, colourful and functional.

General description:

Black metal structure.

Natural, red-amber, black, Diplomática striped or Bretona striped ribbon lampshade, or tile, mustard or green Raw Color ribbon.

Black metal top difusser.

Electric cable length: 2,25 m / 88.6"

Approximate weight (unpacked):

(A) Trípode M3: 3,5 kg / 7.7 lb

(B) Trípode G6: 4 kg / 8.8 lb

Technical information:

(A)

European version: Light source included

American version: Recommended light source (not included)

LED bulb: 5,9 W / 806 lm / 2700 K

E14 - E12 / Max. hgt. 85 mm / 3.3"

(B)

European version: Dimmable light source included

American version: Recommended dimmable light source (not included)

LED bulb: 11 W / 1.521 lm / 2700 K

E27 - E26 / Max. hgt. 130 mm / 5.1"

Dimmer included (dimmable light source required).

Suitable only for indoor use.

Always use the light source recommended or equivalent.

Input voltage: 100, 120, 230 Vac.

(50 Hz / 60 Hz). According to destination.
